

Bringing the Adventure and Science Communities Together

ASC Field Sampling Checklist

MARINE ENVIRONMENTAL
RESEARCH INSTITUTE

Materials needed for microplastic sampling:

- 1 liter clean bottle
- Aluminum/tin foil lined cap
- Permanent marker
- Duct tape or similar
- Pencil for data sheet (as back up to electronic copy)
- GPS
- Beaufort scale reference sheet
- Compass (for determining wind direction)
- Thermometer
- Clock

Make sure you store your data sheets in a safe place. Please upload data electronically:

<https://docs.google.com/forms/d/1f4IqD7PCwJmSTERbSuhaCY9o-p2dS5-XDganjY0h30Q/viewform>

Send original data sheets in the mail with the microplastic samples.
